

EU/ PALESTINIAN AUTHORITY ACTION PLAN

1. Introduction

The enlargement of the European Union on 1 May 2004 has brought a historical shift for the Union in political, geographic and economic terms. The EU and the Palestinian Authority, as close neighbours, will reinforce their political and economic interdependence. Enlargement offers the opportunity for the EU and the Palestinian Authority to create the conditions for developing an increasingly close relationship in preparation for a future Palestinian State, going beyond co-operation, to involve a significant measure of economic integration and deepening of political cooperation.

The European Neighbourhood Policy of the European Union sets ambitious objectives based on commitments to shared values and effective implementation of political, economic, social and institutional reforms.

Achieving Palestinian statehood requires full implementation of the Quartet Roadmap and an end to violence in order to reach a fair and lasting peace in the Middle East, on the basis of the relevant UN Security Council Resolutions, and allowing for the establishment of an independent, viable, sovereign and contiguous Palestinian state, living side by side with the state of Israel in peace and security.

The Palestinian Authority welcomes the EU initiative to enter into intensified political, security, economic and cultural relations, and shared responsibility in conflict prevention and conflict resolution. The European Union and the Palestinian Authority are determined to make use of this occasion to enhance their relations and to promote stability, security and well-being, and to support the Palestinians in their efforts to build their own future. The approach is founded on partnership, joint ownership and differentiation.

Palestinian participation in the European Neighbourhood Policy takes place in the context of the overall political situation in the region which affects the scope of actions that can be feasibly undertaken. There are a number of constraints and limitations resulting from the ongoing Israeli-Palestinian conflict and the continuing occupation, including settlement activity, restrictions to movement as a result of the closure policy and the separation barrier. The limitations on the Palestinian Authority pending the creation of a Palestinian state must also be taken into account. Joint action will be required both to bring about the implementation of the Roadmap and to continue the preparations for statehood.

The level of ambition of the EU-PA relationship will depend on the degree of commitment to common values as well as the capacity to implement jointly agreed priorities. The pace of progress of the relationship will acknowledge fully the efforts and concrete achievements in meeting those commitments.

The European Neighbourhood Policy is part of the European Union's response to the Palestinian Authority's political and economic reform agenda. This Reform has been developed to consolidate democracy, accountability, transparency and justice in the West Bank and Gaza.

This Action Plan is a first step in this process. It covers a timeframe of three to five years. Its implementation will help fulfil the provisions in the Interim Agreement (IA) and will encourage and support the Palestinian Authority's national reform objectives and further integration into European economic and social structures. Implementation of the Action Plan will significantly advance the approximation of Palestinian legislation, norms and standards to

those of the European Union. It will also build solid foundations for further economic integration based on the adoption and implementation of economic and trade-related rules and regulations with the potential to enhance trade, investment and growth. It will furthermore help to devise and implement policies and measures to promote economic growth employment and social cohesion, to reduce poverty and to protect the environment, thereby contributing to the long-term objective of sustainable development. The Palestinian Authority and the EU will cooperate closely in implementing this Action Plan.

New Partnership Perspectives

The European Neighbourhood Policy opens new partnership perspectives:

- The perspective of moving beyond cooperation to a significant degree of integration, including through a stake in the EU's Internal Market, and the possibility for the Palestinian Authority to participate progressively in key aspects of EU policies and programmes.
- An upgrade in the scope and intensity of political cooperation;
- The opportunity for convergence of economic legislation, the opening of economies to each other, and the continued reduction of trade barriers which will stimulate investment and growth;
- More targeted financial support: EU financial assistance for the Palestinian Authority will be better targeted to support the actions identified in the present document. The Commission is furthermore proposing a new European Neighbourhood and Partnership Instrument (ENPI), for this purpose, also covering the very important aspect of transnational cooperation. There may also be infrastructure investment support through the European Investment Bank;
- Possibilities of gradual opening of or reinforced participation in relevant Community programmes, promoting, inter alia, cultural, educational, environmental, technical and scientific links;
- Support including technical assistance and twinning to meet EU norms and standards, and targeted advice and support for legislative approximation through a mechanism such as Technical Assistance Information Exchange (TAIEX);
- Deepening trade and economic relations, extending them progressively to cover agriculture and the service sector, and to provide the conditions for increasing investment and exports

For the near future the Interim Association Agreement remains a valid basis for EU-Palestinian cooperation and will permit the implementation of the priorities of the Action Plan. In the light of the fulfilment of the objectives of this Action Plan and of the overall evolution of the EU-PA relations, consideration will be given to the possibility of a new contractual relationship. The Commission has suggested that this could take the form of a European Neighbourhood Agreement. Upon the establishment of an independent Palestinian State, this would include the features of a full Association Agreement.

Priorities for action

The Action Plan sets out agreed priority objectives to be achieved, which have been jointly agreed by the both the EU and the PA. Many of these priorities are based on the ongoing

Palestinian reform programme which was launched in June 2002. Given the prevailing political situation in the West Bank and Gaza Strip, it is not possible to distinguish between short and medium term actions. In this context the EU and the Palestinian Authority attach particular importance to:

- Facilitating efforts to resolve the Middle East conflict, and to alleviate the humanitarian situation
- Enhancing political dialogue and cooperation, based on shared values, including issues such as strengthening the fight against terrorism and incitement to violence, promoting the protection of human rights and the rights of minorities, improving the dialogue between cultures and religions, co-operating in the fight against racism and xenophobia, in particular anti-Semitism and Islamophobia.
- Progress on establishing a functioning judiciary and effective enforcement of legislation; strengthening the rule of law and respect for human rights
- Strengthening institutions and further reinforcing administrative capacity
- Organisation of elections in the West Bank and Gaza Strip in accordance with international standards
- Building on progress made in establishing an accountable system of public finances
- Developing trade relations with the Palestinian Authority and progress with economic and regulatory reform plans; fully implement the Interim Association Agreement
- Enhance cooperation on transport and energy issues with the objective of strengthening Palestinian participation in Trans Euro-Mediterranean networks

Progress in meeting these priorities will be monitored in structures under the Interim Association Agreement. On this basis, the EU, together with the Palestinian Authority, will review the content of the Action Plan and decide on its adaptation and renewal. Within three years, decisions may be taken on the next step in the development of bilateral relations, including the possibility of new contractual links.

2. Actions

2.1 Political dialogue and reform – building the institutions of an independent, democratic and viable Palestinian State

Development of enhanced political dialogue and cooperation

- (1) *Strengthen political dialogue and cooperation including on foreign and security policy issues*

Regular EU-PA political dialogue is provided for in the context of the Interim Association Agreement on Trade and Cooperation. Political dialogue and cooperation should be strengthened and extended to include the following regional and international issues.

- Provide targeted financial assistance and institution building support, focused on the priorities of the Action Plan and the overall objective of building the institutions of a Palestinian state living in peace and security with Israel

3. Monitoring

The Action Plans will be submitted for formal adoption to the Joint Committees between the EU and the Palestinian Authority. The Action Plans will guide the work between the EU and the Palestinian Authority. Should the need arise, on the EU side, for specific measures necessitating legally binding decisions, the Commission will recommend to the Council the adoption of the necessary negotiating directives.

The joint bodies established under the Interim Association Agreement will advance and monitor the implementation of the Action Plan on the basis of regular reports on its implementation.

A first review of the implementation of the Action Plan will be taken within two years of its adoption.

The Action Plans can be regularly amended, on a joint basis, and/or updated to reflect progress in addressing the priorities.
